Rowse Fishing Ltd. is owned and run by husband and wife team, Mark and Emma Rowse. They have been trading for 15 years, supplying crab and lobster to local and international markets. Their vessels operate in the South West approaches, up to twenty miles of the shores of Devon and Cornwall and can be at sea for anything up to five days at the time, but usual practice is three days trips. All of their vessels fish using a variety of crab pots; inkwells, parlour pots and creels.
